PHP ENVIRONMENTAL CONSULTING, INC.

Creating safe work environments for those creating
lifesaving and life improving products.

We Form Partnerships with Our Clients

PHP Environmental Consulting is a Woman-Owned Business (WBE) specializing in environmental, health and safety (EHS) consulting services for the Life Science, HealthTech, Health Science and Chemical sectors. Started in 1985, we provide essential and comprehensive EHS services for our clients in:

- **Biotech**
- **Pharmaceutical**
- **Medical Device**
- **Chemical Formulation**

We are experts in biological safety, chemical safety, radiation safety, environmental compliance, and worker health and safety.

We work with our clients during all phases of operation — from R&D and pilot, to full production, to decommissioning. We have one goal — to allow our clients to focus on their businesses.

BY PROVIDING PLANNING,
PREPARATION, REPORTING AND
IMPLEMENTATION SERVICES, PHP
FORMS A PARTNERSHIP WITH OUR
CLIENTS AS EHS ADVISORS AND
PRACTITIONERS.

THE RESULT IS SUCCESS.

We Maintain a Highly Qualified Staff

Our experience shows. For over two decades, PHP has successfully provided solutions to the complex EHS compliance issues facing the biotech, pharmaceutical, chemical and medical device industries.

The PHP staff consists of seasoned EHS professionals offering in-depth field experience to guide our clients through a complicated regulatory landscape with a confident, “been there” capability. Most importantly, we understand the specific hazards associated with everyday procedures in our clients’ operations, such as new product development, experimental procedure changes, product substitutions, and changes in personnel.

The PHP staff is highly trained in the disciplines of health physics, industrial hygiene, worker safety, public safety, biosafety, chemical safety, chemical hygiene, fire and life safety, radiation safety and hazardous waste and hazardous materials management. Through continual education in our areas of competency, PHP can structure its services to become an “in-house” resource for our clients—ensuring that they have sustainable safe working environments & full regulatory compliance. We often manage internal safety committees and serve as a liaison between our clients and federal, state and local agencies, acting as the internal Radiation Safety Officer (RSO), Biological Safety Officer (BSO), and Chemical Safety Officer (CSO).

EHS SERVICES

For the Biotech, Pharmaceutical, Medical Device & Chemical Formulation Industries

A Regionally Recognized Leader

PHP is regionally recognized as a provider of exceptional environmental, health and safety services, helping our clients through the maze of standards or regulatory requirements under OSHA; EPA, DOT, NRC, NFPA, NVLAP, CDC, ANSI, and NIST as well as state and local government agencies. We service our clients in New Jersey, Pennsylvania, Connecticut and New York and have an impressive track-record helping our clients pass state and federal inspections. Services Include:

- EHS Compliance Gap Assessments and Comprehensive Audits
- IH Assessments
- EHS Program Review and Development
- EHS Program Implementation
- SOP and Guidance Document Development
- Employee Training
- Management Training
- Agency Permit, Application, Licensing, and Renewal Submissions
- Regulatory Reporting
- Engineering Control Review and Modification Recommendations
- Expert Services for Litigation Support and Agency Fine Reduction

Frequently, clients enlist PHP to provide a full complement of environmental, health and safety services — from initial assessments to program roll-out and employee training. We have written EHS Programs and developed comprehensive safety manuals and SOPs concerning chemical and biological safety, radiation safety, environmental health, and worker health and safety. We always strive to meet our clients' timetables, priorities, and constraints in a tailored, cost-effective approach.

Occupational Health & Safety

Keeping workers safe is our life's work. PHP understands the specific risk to employees in the Life Science, HealthTech, Health Science and Chemical sectors.

- **Laboratory Safety**
- **Radiation Safety**
- **Potent Compound Safety**
- **Worker Health**

Public and Environmental Health

Biotech, pharmaceutical, chemical, and medical device companies are diligent in their daily endeavor to develop lifesaving and life improving products. PHP works side-by-side with these clients in this pursuit to not only improve, but protect public health.

- **SDS Development & Review**
- **Hazardous Waste Management**
- **Fire Safety & Life Safety**
- **Air Pollution Program Compliance**
- **Hazardous Materials Management**
- **Radiation & Radiological Waste Management**

PHP IS A REGIONALLY
RECOGNIZED PROVIDER OF
SUPERIOR EHS SERVICES,
WORKING SIDE-BY-SIDE WITH
OUR CLIENTS TO ANSWER THEIR
QUESTIONS AND ALLEVIATE THEIR
CONCERNS.

www.phpenviro.com

OUR BEST CLIENTS UNDERSTAND THAT WE VALUE THEIR TIME & THEIR TRUST IN OUR ABILITIES TO REDUCE THE COST OF STAFFING, THE FEAR OF NON-COMPLIANCE, AND THE RISK OF OPERATIONAL DOWNTIME DUE TO ENVIRONMENTAL, HEALTH & SAFETY ISSUES.
